IT Problem Solved

Setting the standard for IT Excellence

Delphi Technology Solutions, Inc.

established in 2003 and based out of the mills in Lawrence, MA is passionate about finding solutions for complex IT situations and providing solid IT networking services for municipalities and other businesses.

Delphi delivers secure software applications for information sharing, consultation, design, procurement and implementation of network infrastructure, database management and support on several platforms such as SQL, data integration, virtualization, cybersecurity, computer forensics, FOIA requests and ongoing support for all applications after the installation.

Delphi has 16 years of experience in upgrading systems such as CAD/RMS (such as IMC and QED and others), WebEOC, Munis, SharePoint and other applications throughout Massachusetts, Maine, New Hampshire, Rhode Island and Arkansas. Delphi is currently providing ongoing IT services to 16 municipalities throughout the state of Massachusetts—keep reading for a great list of some of our references.

Why choose Delphi???

**Our customers know we put them first—
and you will too . . .**

"I wanted to let you know how much I greatly appreciated Patrick and the extra work he did for me on Monday for the Board Of Appeals. I am sure this is one of many times, but he really was incredible to stay through the entire night, after being called back in, and I am forever grateful."

Stephanie Purachhio, Saugus Board Of Appeals

"Delphi's proven experience in network engineering allows us to respond to even the most complicated deployments without missing a step in normal operations. Delphi has the resources to handle the most critical emergencies in the technology field. We've experienced some of those critical emergencies, some occurring at the most inopportune times. Delphi's response and support during those emergencies helped us maintain uninterrupted services to our citizens."

Chief Michael Murphy, North Reading, MA

Delphi has had long-standing relationships with a number of customers. Below is a list of some of our customers that Delphi currently is contracted with for network services. Please feel free to contact any of them and ask about our products and services.
